

AI AUTOMATION AGENCY

# Automations, **built.**

斬

Every engagement starts with a free audit — a 30-minute call to map what's actually worth automating in your business. From there, pick the build that fits. n8n workflows, AI agents, RAG, and integrations — scoped, built, and tested against real use before it ships.

STEP 0

## Free Automation Audit

30-min call — map your workflows, flag what's worth automating, no obligation.

\$0

## Single Workflow

**\$750**

ONE-TIME BUILD

- 1 automation, 1 trigger → action chain
- Error handling + basic logging
- Documentation + 1 revision round
- Webhook or API integration (n8n)
- Tested against real data before handoff
- ~1-2 week turnaround

MOST BOOKED

## Multi-Step System

**\$1,800**

ONE-TIME BUILD

- Multiple connected workflows, conditional logic
- Lead-routing, booking, or chatbot system
- Documentation + 2 revision rounds
- CRM / tool integrations (Sheets, Airtable, etc.)
- Error handling + monitoring built in
- ~2-3 week turnaround

## AI Agent System

**\$3,500**

ONE-TIME BUILD

- Multi-agent architecture (Claude / OpenAI)
- Custom prompt + tool-use design
- Documentation + 2 revision rounds
- RAG-based knowledge retrieval
- Applied evaluation against real use cases
- ~3-5 week turnaround

Fees reflect typical scope for each tier — final quote confirmed after the free audit. Builds are one-time; pair with a maintenance retainer (next page) to keep systems monitored and growing.

MAINTENANCE · 3-MO MIN

- 1–3 workflows monitored
- Monthly check-in
- Uptime + error monitoring
- Minor tweaks + bug fixes included
- Email support

MOST BOOKED

## Growth

**\$1,800** /mo

MAINTENANCE · 3-MO MIN

- 4–8 workflows monitored
- Bi-weekly check-in call
- Uptime + error monitoring
- ~4 hrs/month new workflow development
- Priority support

## Scale

**\$3,500** /mo

MAINTENANCE · 3-MO MIN

- Unlimited workflows monitored
- Weekly strategy call
- Multi-agent + RAG systems included
- ~12 hrs/month new development
- Priority support, fastest turnaround

Retainers keep an existing system (built here or elsewhere) monitored and growing — they require an initial build first. Need AI-generated video/image/voice content instead? See the Zenpai Videography & AI Services rate card.
